

Protection. Beauty. Serenity.
And now, a **\$1500 Tax Credit for Energy Efficiency.**
We Have the Complete Package.

Now is the Best Time to Replace your Windows with PGT® Vinyl Energy Packages.

For 30 years, PGT has provided homeowners with quality window products that protect homes against weather and intruders, enhance beauty, eliminate sounds and reduce energy costs. We continue to evolve our product lines to exceed customer expectations and industry standards.

As part of this evolution, we are announcing on August 10 the availability of the Vinyl Series 400 and WinGuard® Vinyl Series 500 Single Hung and Horizontal Roller Windows that qualify for the government's energy tax credits in the American Recovery and Reinvestment Act of 2009 (the Picture Window and Casement already qualify for the tax credit). The Act includes an incentive for homeowners across America to receive a **30% tax credit (up to \$1,500)** per household for energy efficient home improvements made in 2009 and 2010.

Important Ordering Information:

- **Orders for the qualifying 400 and 500 Series Single Hung and Horizontal Roller can be taken beginning August 10 and will be shipped beginning in early September.** You can continue to place orders for the Picture Window and Casement now with standard delivery times.
- For tax record keeping purposes, PGT makes available on its website a copy of the PGT Manufacturer Certification Statement (MCS), which the homeowner should keep on hand with a copy of the sales receipt. Go to pgtindustries.com and click on the banner "PGT Qualifies More Products for Federal Energy Tax Credit" for more information.
- Windows must be purchased and installed during the 2009 or 2010 tax years. The tax credit only applies to the purchase price of the windows and does not include labor costs associated with removal of old windows or installation of new windows.

One of the greatest advantages offered by PGT Vinyl Windows is their construction, designed to effectively insulate and protect homes from the elements. PGT Vinyl WinGuard Series 500 products meet the most stringent code requirements for hurricane-force winds and flying debris, to ensure that even after impact, the glass remains in the frame.

Choose PGT and expect quality without compromise in selection, service and satisfaction.

TAX CREDIT QUALIFIED WINDOW STYLES INCLUDE:

- **Single Hung - Series SH500 & SH400**
- **Horizontal Roller - Series HR510 & HR410**
- **Picture / Fixed Lite Architectural - Series PW520/AR520 & PW420/AR420**
- **Casement - Series CA540 & CA440**
